

WiTEC Newsletter

We focus on women in STEM

WiTEC Newsletter N° 31 ~ April 2018

The European Association for Women in Science, Technology, Engineering and Mathematics (STEM).

Awards for pupils participating in Engineering competition

Greek Women's Engineering Association – EDEM awarded pupils from 4 High Schools who succeed in Engineering competition among their class mates.

The event took place on 9 Mars 2018, in auditorium in the center of Athens with parents, teachers, pupils and engineers in the audience. Pupils worked in teams of 4, in the frame of the EU ERASMUS+ project **Engineer for the Future – Engine4F**».

Engine4F

The event took place on 9 Mars 2018, in auditorium in the center of Athens with parents, teachers, pupils and engineers in the audience. Pupils worked in teams of 4, in the frame of the EU ERASMUS+ project **EngineerfortheFuture – Engine4F**».

Aim of this project is promoting Engineering subjects in High schools and tackling social stereotypes which prevent girls from choosing Engineering studies.

Four high schools participated from Greece: 41st high school of Athens, 1st high School of Zefyri, 3rd High School of Nikaia and Raleios High School.

Subject of the competition was the design and construction of a engineering facility, a robot or an experiment. The 3rd High School of Nikaia won the 1st prize and this team will represent Greece in the European completion of the **Engine4F** project which will take place in June 2018, in Aveiro, in Portugal.

Except awarding ceremony there were speeches about 'Energy Saving', 'Architecture', 'Recycling', 'Women in STEM' and presentation of the evaluation of

Empowering migrant
women through mentoring

The winning logo

We are happy to present the logo for the
WiTEC EU partner project EUMentorSTEM.

This project has been funded with support from the European Commission, within the framework of Erasmus Plus Programme (2014 – 2020).

The Project dissemination group, led by WiTEC SWEDEN, announced a competition for all the students at Lund University, School of Industrial Design (in Sweden), to send in their suggestions for a project logotype.

After democratic voting the winner was announced to be Emma Berg and Paul de Medeiros who worked on the design together. We will be presenting the two happy winners in our next newsletter.

To read more about the project please follow in on
eumentorstem.eu or on Facebook [EUMENTORSTEM](https://www.facebook.com/EUMENTORSTEM)

Co-funded by the
Erasmus+ Programme
of the European Union

Inova Consultancy Ltd

is the UK representative of WiTEC EU.
Inova's Director, Marina Larios, is the
President of WiTEC EU.

Inova is an active advocate of women's
involvement in STEM. The organisation
has been involved in several projects
focusing on the promotion of women's
higher representation in the STEM sector.
Currently, it is involved in the
EUMentorSTEM project focusing on
migrants women with a STEM
background.

Inova has been running since 2001 and provides consultancy services in the area of
entrepreneurship and career development, with a focus on diversity and equal opportunities.

Inova has specialist experience in running workshops, training courses and mentoring
programmes aimed at women starting up or developing their business.
